Premeditated of many years blockade examination of my  
said patent applications is contradiction of law.

I wrote about it in my preceding concrete letters many times.

I hope the Technology Center would be able to speed up examination  
of my applications. Breakdown of the progress is impossible.

It's a pity, but next my appeal will be send to the international  
community in order to help benefit matter. Today's ecology state  
of our planet and humanity is fatal.

I trust your kind attention on the matter.

Sincerely,

applicant Pol Raikin
